

REPLACING YOUR MEDICARE CARD

Need your Medicare card replaced? Call the National Social Security Hotline at (800) 772-1213. You can also go to your local social security office or go online to SSA.gov. You will need your social security number, date of birth and your name as it appears on your most recent SS card.

If you get Medicare Benefits (either drugs or health) through a Medicare Advantage Plan such as HMO, PPO, or PDP you will need to get in contact with your plan to get your plan card replaced.
